

Investment Philosophy/Process

The Global Talents strategy is built on the manager's belief that there is a natural alignment of interests between entrepreneur-owned businesses and long term investors goals.

The Fund's primary focus is to invest in talented entrepreneurs who have a strong track record of creating value and who retain a significant stake in their businesses.

The Fund seeks companies displaying entrepreneurial characteristics by taking a holistic view of a business, looking at the overall strength of its business model, corporate governance practices and quality of management or management's "track record" and the ability to execute on opportunities.

Security values also may be negatively affected by changes in the exchange rates between the U.S. dollar and foreign currencies. Differences between U.S. and foreign legal, political and economic systems, regulatory regimes and market practices also may impact security values and it may take more time to clear and settle trades involving foreign securities.
